Summary

- Full-Stack Developer skilled in HTML, CSS, JavaScript, React.js, and Firebase. Passionate about creating responsive and interactive web applications. Strong foundation in frontend development with hands-on experience through real-world projects and internship experience.

Experience

Venom Technology 15/12/2025 - 15/04/2026 Anand - V.V.Nagar

Designation : WebDeveloperIntern

- Built a full-stack Pet Adoption System to streamline the Adoption Process.
- Developed responsive and user-friendly interface using React.js.
- Integrated frontend and backend service efficiently using Firebase APIs and React state management to provide a
- smooth user experience like working application for real-world usage.

Project : Pet Adoption System

Project Live Demo :<https://petpal-pet-adopation-system-gead.vercel.app>

React.js,Node.js, Firebase(Authentication,Firestore),Cloudinary

- Developed a pet adoption and e-commerce platform with user and admin modules using React.js and Firebase.
- Implemented authentication, adoption request management, product catalog, cart, and wishlist features.
- Integrated Firestore for real-time data management and Cloudinary for image uploads and storage.
- Built an admin dashboard for managing pets, products, and adoption workflows, ensuring a smooth end-to-end
- user experience.

E-Commerce Platform – ShopSphere

Project Live Demo : <https://shop-sphere-topaz-five.vercel.app/>

- Built a modern e-commerce web application named ShopSphere using React.js, React Router,
- Firebase Authentication, and Firestore.
- Implemented features such as product browsing, search and filter system, shopping cart,
- wishlist management, responsive UI, and secure user authentication.

Education

Master of Computer Application[MCA]

Sardar Patel University - V.V.Nagar, Anand

Bachelor of Computer Application[BCA]

Saurashtra University - Rajkot GPA: 6.89

SKILLS

Frontend Development : HTML, CSS, JAVASCRIPT, BOOTSTRAP, REACTJS

Backend Development : Firebase, Node.js

Databases : MongoDB,MySQL / SQL

Development Practices : APIIntegration, Debugging & Testing, Clean Code Practices

ACADEMIC PROJECT

Freelance Marketplace Platform (PHP, MySQL)

PHP,MySQL, JavaScript,HTML, CSS

- Designed and developed a freelancing platform from scratch using PHP for backend logic, MySQL for database storage, and front-end technologies (HTML, CSS, JavaScript).
- Implemented user authentication, project posting, and user interaction features to connect clients and freelancers.
- Built dynamic UI views and forms to support user registration, login, and project browsing.
- Structured relational database tables and managed data flow securely between the frontend and backend.
- Focused on maintainable architecture and a clean codebase to facilitate future enhancements.
